This is my report on using Qwen3-Max on the coding part of homework 8.
Concise summary of my findings:

Problem	Outcome
2(a)	one-shot
2(b)	one-shot
2(c)	one-shot
2(d)	one-shot
2(e)	one-shot
2(f)	one-shot

I'm impressed by Qwen's performance on this coding segment of the homework.

Coding SSM Forward (CPU part)
